The mobility, planned in DIST, are in full swing and the countries partners visit each other, with groups of entrepreneurs, aspirant entrepreneurs and teachers. The idea to promote the sense of initiative and entrepreneurship, now becomes a fact, a real action. In fact, the Project DIST, "Digital Storytelling for spreading and promoting entrepreneurship", is born with the intent to awaken the "desire of enterprise" through some interviews of entrepreneurs young, innovative and positive. From these interviews have been prepared some VET (Vocational Education Trainers) videos to spread and promote entrepreneurship, and also to transmit the experiences of the entrepreneurs interviewed.

In this month of June took place the Mobility C2 both in Romania and in Poland. A group of aspirant entrepreneurs and entrepreneurs, analyzed some aspects of storytelling, and attended very interesting courses on different matters.

In Poland, the mobility was an occasion also to visit the Bionanopark in Lodz an important research centre where the participants learned many information on the last new technologies.

Moments of the mobility in Romania at the headquarter of the Romanian partner AOA Arges

Moments of the mobility in Poland at the headquarter of the Polish partner the Lodz University
